Sage SalesLogix Mobile

Extend rich CRM functionality to mobile device users quickly and easily - at no additional charge!¹

Full-Featured Mobile CRM at Your Fingertips

Extending Sage SalesLogix to smartphones and other mobile devices gives your field force a strong competitive advantage that can help drive revenue and enhance the customer experience. Whether viewing up-to-the-minute Account or Contact information, updating an Opportunity, scheduling an Activity, or logging a call or email to History, Sage SalesLogix Mobile gives professionals on-the-go the secure, instant access to vital customer information and productivity tools they need to succeed.

Rich, Flexible User Experience without the Learning Curve

Easy to learn and use, Sage SalesLogix Mobile has an attractive, task-oriented user interface designed to put detailed customer information at your fingertips and enable you to perform key actions quickly. Interaction with native device functions such as mapping, dialing, and email further streamlines the user experience. A rich, browser-based application, Sage SalesLogix Mobile is optimized for use on today's smartphones and tablets², can be easily customized and configured, and can be used both online and offline.

Deploy and Manage Easily for Low TCO

Designed to provide an exceptional ownership experience, Sage SalesLogix Mobile can be deployed quickly and easily, managed and customized centrally, and updated automatically over the air. Multi-layer security, RESTful web services, an open source platform, and wide device support further enhance the ownership experience. Best of all, Sage SalesLogix Mobile is provided to Sage SalesLogix customers at no additional charge.¹

- The new Sage SalesLogix Mobile provides professionals on-the-go with robust customer information and productivity tools on the latest popular mobile devices.^{1,2}
